

OAKLAND HOUSING AUTHORITY POLICE DEPARTMENT

Safety Bulletin

This is a reminder to tenants in buildings with a telecom security entry system to:

- 1. Always know whom you are letting inside the building.**
- 2. Never let anyone in who tells you the person they are visiting does not have a working telephone.**
- 3. Never let anyone borrow your access card. Building access cards found on persons who are not tenants will be confiscated.**
- 4. If you see any person putting items in the doors to prevent them from closing, call the police and tell them what doors have been left unsecured.**

Remember this is our building; we are responsible for our neighbors' safety as well as our own. We can work together to keep our building a safe place to live.
